AEEMA MEETING - JUNE 2, 2023 - COMMUNICATIONS	
<i>Emergence of the epizootic haemorrhagic disease in Europe Zientara Stéphan, Bréard Emmanuel, Postic Lydie, Turpaud Mathilde, Fablet Aurore, Caignard Grégory, Vitour Damien and Sailleau Corinne</i>	5-9
<i>Estimating the date of the first infection by highly pathogenic avian influenza in poultry to optimise contact tracing Lambert Sébastien, Hobbelen Peter H.F., Fourtune Lisa, Baca Julie, Gonzales Jose L., Elbers Armin R.W. and Vergne Timothée</i>	11-21
<i>Toxoplasmosis in the peri-urban area of Ouagadougou in Burkina Faso: seroprevalence in dairy cows, knowledge and behaviors at risk of zoonotic transmission of this zoonosis Tialla Dieudonné, Sondo Ives, Kiendrébéogo Aboubaca, Sebou Dah Jean-Baptiste, Gobré Adama, Kaboré Jean and Sandwidi Georgette</i>	23-31
<i>Development of scenario tree model to determine the probability of introducing <i>Dirofilaria immitis</i> in mainland France by military working dogs returning from overseas mission Grosbois Amélia, Risco-Castillo Veronica, Watier-Grillot Stéphanie and Crozet Guillaume</i>	33-47
<i>Monitoring the risk of entry of African swine fever at the farm level in Catalonia (Spain) Alba-Casals Ana, Pailler Lola, Sánchez Carlos, Vilalta Carles, Colomer Joana, Ciria Natalia and Napp Sebastián</i>	49-66
<i>Modeling of the probabilities of favorable areas of <i>Aedes albopictus</i> in Auvergne-Rhône-Alpes, France Lebrun Jean, Rey Delphine, Besnard Gilles, Foussadier Rémi, Rome Sandra and Bicout Dominique J.</i>	67-79
<i>Exploring modelling methods to monitor mortality indicators in dairy farms. Case study: Catalonia (Spain) Rodríguez-Navas Laura, Balcázar José Luis, Terré Marta, Casals Rita, Soler Mireia, Riera Carles, Napp Sebastian, Pailler Lola, Puig Pere, Fernández-Fontelo Amanda and Alba-Casals Ana</i>	81-96
<i>Analysis of risk factors associated with bovine brucellosis in a region of Paraguay Avalos Amaias, Durand Benoît and Zanella Gina</i>	97-108
<i>Modelling the spread of bovine brucellosis in Paraguay through the cow trade Avalos Amaias, Zanella Gina and Durand Benoît</i>	109-130
<i>Spatial distribution and phylogeny of <i>Borrelia garinii</i> found in common birds in France François Margaux, Rataud Amalia, Moutailler Sara, Galon Clémence, Henry Pierre-Yves, Marsot Maud and Canini Laetitia</i>	131-144
ARTICLE ANALYSIS	
<i>Viral zoonosis and “Machine learning”: looking for genomic signatures to predict the zoonotic potential of viruses Gondard Mathilde, Benfrid Souheyla and Dheilily Nolwenn</i>	145-155
